* Non-GAAP measures exclude: equity-based compensation; amortization of intangibles; restructuring; Switzerland pension plan curtailment; non-cash interest expense; net tax settlement expense (benefit) and other tax adjustments; and related tax effects on non-GAAP adjustments (see reconciliations of GAAP results to Non-GAAP measures in the following financial schedules).
** As adjusted for ASC No. 470.20, Debt, Debt With Conversion Options.
*** Not meaningful as comparable period was a loss.
Commenting on the results, Scott Kulicke, Chief Executive Officer, said, "In the June quarter our operations team did a terrific job ramping up production in response to the unprecedented customer demand we are currently experiencing. As a result, we were able to beat our revenue guidance, deliver strong financial performance and demonstrate the strength of our business model.
"Our equipment business grew almost 50\% over the March quarter, driven by continued demand from both IDM and subcontractor customers, and across all application spaces. Especially noteworthy were ball bonder shipments for LED applications, which almost doubled over the March quarter, and heavy wire wedge bonder shipments which were up about $50 \%$ over the March quarter. We're also starting to see increasing demand from the memory segment. Lastly, the industry's transition to copper continues to be a strong driver of demand, and of our rising market share.
"Last month we commented that we had seen some volatility in our order book as one of our customers had pushed out some deliveries originally scheduled for the September quarter. I'm happy to report that that customer quickly reversed course and pulled some of those machines back into the quarter and that, as we predicted, we easily sold the rest of those delivery slots to other customers eager for capacity.
"We believe it is important for investors to understand that some volatility in our order book is normal, and does not detract from our confidence, based on orders already in hand, for both the September and December quarters. We expect September quarter revenue to be in the $\$ 250$ million to $\$ 260$ million range, and, while it is too early to provide December quarter guidance, we can say that we expect that quarter's revenue to be about comparable to September.
"Finally, let me point out that 2010's profitability and cash generation is allowing us to make significant improvements to our capital structure. When coupled with ball bonder market share expansion, continued penetration into the LED market, ongoing strength in the wedge bonder market and initial orders for our iStack die bonder, K\&S has a solid foundation for ongoing success."

Key Product Trends

- Ball bonder units and revenue were up approximately $50 \%$ over the March quarter.
- Continued strong demand for the K\&S copper solution; ball bonders configured for copper remain at approximately $60 \%$ of all ball bonder shipments.
- LED ball bonder shipments almost doubled over March quarter levels.
- Heavy wire wedge bonder demand continued to increase, with sales approximately $50 \%$ over the March quarter; further incremental demand is anticipated through the September quarter.
- Our recently launched die bonder product continues to gain customer acceptance.
- Revenue increased $44 \%$ sequentially, exceeding previous guidance by $\$ 16.3$ million.
- GAAP operating margin was $22.6 \%$, or $24.9 \%$ on a non-GAAP basis.
- GAAP net income was $\$ 49.1$ million, up $\$ 27.9$ million from the previous quarter.
- GAAP diluted EPS was $\$ 0.65$, up $\$ 0.37$ from the previous quarter.
- Continuing operations generated $\$ 27.7$ million of net cash.
- Completed redemption of $\$ 49.0$ million in Convertible Subordinated Notes due June 30, 2010 using cash on hand.
- Net revenue for the September quarter is expected to be in the $\$ 250$ million to $\$ 260$ million range, revenue of this magnitude is anticipated to follow in December.

Earnings Conference Call Details
A conference call to discuss these results will be held tomorrow, August 5, 2010 beginning at 9:00 am (ET). To access the conference call, interested parties may call (877) 407-8037 or (201) 689-8037, or log on to Investor Events for listen-only mode. A replay will be available approximately one hour after the completion of the call by calling toll-free (877) 660-6853 or internationally (201) 612-7415 and using the following replay access codes: 5521 (account number) and 353660 (replay ID number). A replay will also be available on the K\&S website at Investor Events. The replay will be available via phone and website for a limited time.

## Discussion of Non-GAAP Measures

This press release contains non-GAAP measures as a supplement to the consolidated financial results presented in accordance with GAAP. The Company believes certain non-GAAP measures provide investors with an additional, useful perspective on the Company's performance as seen through the eyes of management. Management uses non-GAAP measures along with GAAP financial results for: analyzing the performance of the Company's businesses; strategic and tactical decision making; and determining compensation. The Company does not consider non-GAAP measures to be a substitute for, or superior to, financial results presented in accordance with GAAP. All of the non-GAAP measures included herein are reconciled to the most directly comparable GAAP results in the following financial statements. These non-GAAP measures may be calculated differently from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on a comprehensive set of accounting rules or principles and some of the adjustments reflect the exclusion of items that are recurring and will be reflected in the Company's GAAP financial results for the foreseeable future.

## Exclusions from GAAP Results

The Company excludes the following from its GAAP results in presenting non-GAAP measures:

- Equity-based compensation expenses The Company recognizes the fair value of its equity-based compensation in expense. Equity-based compensation consists of common stock, stock options and performance-based, market-based and time-based restricted stock granted under the Company's equity compensation plans. Equity-based compensation is a non-cash expense that can vary significantly in amount from period to period.
- OtherThe exclusion of certain other non-GAAP amounts allows for improved comparisons of the Company's results to both prior periods and other companies. The Company excludes the following other items from non-GAAP measures as these items are not reflective of the performance of the Company's ongoing businesses:
- Amortization of intangibles
- Restructuring
- Impairment of goodwill
- Switzerland pension plan curtailment
- Gain on extinguishment of debt
- Non-cash interest expense
- Net tax settlement expense (benefit) and other tax adjustments
- Tax Adjustment Non-GAAP measures are tax adjusted using the GAAP tax rate associated with each quarterly period. The tax rate is calculated by dividing each quarter's GAAP tax expense (benefit), adjusted for discrete quarterly items, by the GAAP operating income (loss) for that quarter. Non-GAAP year-to-date measures are calculated by summing the associated quarterly non-GAAP measures, without further tax adjustments.

## Non-GAAP Measures

The specific non-GAAP measures included herein are gross profit, gross margin, net income (loss), net margin, and earnings per share ("EPS"). The Company calculates these measures as follows:
--Adjusted Gross Profit and Adjusted Gross MarginK\&S non-GAAP adjusted gross profit and adjusted gross margin exclude the effect of equitybased compensation expense recorded within cost of sales.
--AdjustedNet Income (Loss), Adjusted Net Margin and Adjusted EPS K\&S non-GAAP adjusted net income (loss) and adjusted EPS exclude equitybased compensation; amortization of intangibles; restructuring; impairment of goodwill; Switzerland pension curtailment plan; gain on extinguishment of debt; non-cash interest expense; net tax settlement expense (benefit) and other tax adjustments; and related tax effects on non-GAAP adjustments.

## About Kulicke \& Soffa

Kulicke \& Soffa (NASDAQ: KLIC) is a global leader in the design and manufacture of semiconductor and LED assembly equipment. As a pioneer in this industry, K\&S has provided customers with market leading packaging solutions for decades. In recent years, K\&S has expanded its product offerings through strategic acquisitions, adding die and wedge bonders and a broader range of expendable tools to its core ball bonding products. Combined with its extensive expertise in process technology, K\&S is well positioned to help customers meet the challenges of assembling the next-generation semiconductor and LED devices. ## Caution Concerning Forward Looking Statements

In addition to historical statements, this press release contains statements relating to future events and our future results. These statements are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995, and include, but are not limited to, statements that relate to increasing, continuing or strengthening demand for our products, and our future growth, revenue, profitability and
cash flow. While these forward-looking statements represent our judgments and future expectations concerning our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations. These factors include, but are not limited to: the risk that customer orders already received may be postponed or canceled, generally without charges; the risk that anticipated customer orders may not materialize; the risk that our suppliers may not be able to meet our demands on a timely basis during periods of historically high demand for our products; the volatility in the demand for semiconductors and our products and services; volatile global economic conditions, which could result in, among other things, sharply lower demand for products containing semiconductors and for the Company's products, and disruption of capital and credit markets; the risk of failure to successfully manage our operations; acts of terrorism and violence;risks, such as changes in trade regulations, currency fluctuations, political instability and war, associated with a substantial foreign customer and supplier base and substantial foreign manufacturing operations;and the factors listed or discussed in Kulicke and Soffa Industries, Inc. 2009 Annual Report on Form 10-K and our other filings with the Securities and Exchange Commission. Kulicke \& Soffa Industries, Inc is under no obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements whether as a result of new information, future events or otherwise.

KULICKE \& SOFFA INDUSTRIES, INC.
ADJUSTED RETURN ON INVESTED CAPITAL
(In thousands)
(Unaudited)

|  | Three months ended July 3, 2010 |
| :---: | :---: |
| Income from operations | \$ 50,052 |
| Adjustment: Depreciation and amortization (1) | 4,336 |
| Adjusted income from operations | 54,388 |
| Adjusted income from operations, annualized (4) | \$ 217,552 |
| Cash, cash equivalents, restricted cash and investments | \$ 163,066 |
| Adjustment: cash, cash equivalents, restricted cash and investments (2) | (88,066) |
| Adjusted cash, cash equivalents and investments | $\$ 75,000$ |
| Total assets excluding cash, cash equivalents and investments | $343,412$ |
| Adjusted total assets | 418,412 |
| Total current liabilities | \$ 119,417 |
| Add: taxes payable (3) | 1,552 |
| Adjusted current liabilities | 120,969 |
| Adjusted net invested capital | \$ 297,443 |
| ROIC (4) | 73.1 |

(1) Depreciation and amortization are excluded from the ROIC calculation.
(2) Management estimates minimum cash requirement is $\$ 75.0$ million.
(3) Adjusted current liabilities includes tax liabilities classified as current in prior periods but reclassed to long term liabilities as a result of our adoption of ASC 740.10 during the first quarter of fiscal 2008.
(4) ROIC calculated as adjusted income from operations, annualized through multiplying the current quarter's income from operations by 4 , then divided by adjusted net invested capital. Adjusted income from operations is not intended to forecast the Company's future income from operations.
